

DEPARTMENT OF PSYCHOLOGY
OLD DOMINION UNIVERSITY

Position Opening

HUMAN FACTORS PSYCHOLOGY

The Department of Psychology at Old Dominion University invites applications for a tenure-track Professor of Psychology in Human Factors (open rank) to begin in August 2017.

Applicants must hold a PhD in human factors psychology or a closely allied program (e.g., engineering psychology, applied cognitive, neuroergonomics). Candidates at the Assistant Professor level must demonstrate strong potential for developing an independent outstanding research program and strong accomplishments in teaching. Candidates at the Associate or Full Professor level must demonstrate substantial research accomplishments of peer-reviewed publications, a consistent record of peer-reviewed funding as a PI, current active competitive grants, and a strong and successful graduate and undergraduate teaching and mentoring record.

Responsibilities include teaching undergraduate courses to support the core undergraduate curriculum, including courses supporting our online psychology major, graduate courses, conducting research, and mentoring M.S. and Ph.D. students. Preference will be given to candidates with a research program that complements and expands current Human Factors faculty research and to those with expertise in one or more of the following areas: physiological, cognitive, or aging/developmental psychology.

ODU's Psychology Department is in the College of Sciences and includes 31 full-time faculty members, approximately 1200 undergraduate majors, and 75 students in our graduate programs. At the graduate level, the department participates in the Virginia Consortium Program in Clinical Psychology, an APA-accredited clinical Ph.D. program, offered in conjunction with Eastern Virginia Medical School and Norfolk State University. The department also offers a terminal Master's degree in Experimental Psychology and Ph.D. degrees in Applied Psychological Sciences, Human Factors, and Industrial/Organizational Psychology. The human factors Ph.D. program received six-year accreditation from the Human Factors and Ergonomics Society in 2011. Faculty research is currently funded by AFOSR, NASA, ARL, and various other entities.

Old Dominion University is located in the Hampton Roads area on the Chesapeake Bay in southeastern Virginia. The area is a regional center for military, medical, and scholarly research. Old Dominion University is also home to the Virginia Modeling, Analysis and Simulation Center which focuses on the use of modeling and simulation technologies for research, education, and economic development. The faculty member selected for this position will have the opportunity to be involved in Old Dominion University modeling and simulation initiatives in the areas of homeland security, medical applications, transportation, and serious games. Other local institutions that have a history of research collaboration with the department include: Eastern Virginia Medical School, NASA-Langley Research Center, Naval Medical Center Portsmouth, Norfolk State University, and the Human Performance Center of the US Navy. For more information about the department, visit <http://sci.odu.edu/psychology/>.

To apply please submit a curriculum vita, statements describing research and teaching interests, evidence of teaching effectiveness, three letters of reference, and a letter of application to. Applications will be reviewed beginning October 15, 2016 and continue until the position is filled. Old Dominion University is an equal opportunity, affirmative action institution. Minorities, women, veterans and individuals with disabilities are strongly encouraged to apply.
